

Digital Governance Toolkit

Digital transformation is strategically leveraging and incorporating technology that enhances patient care including but not limited to:

VIRTUAL CARE

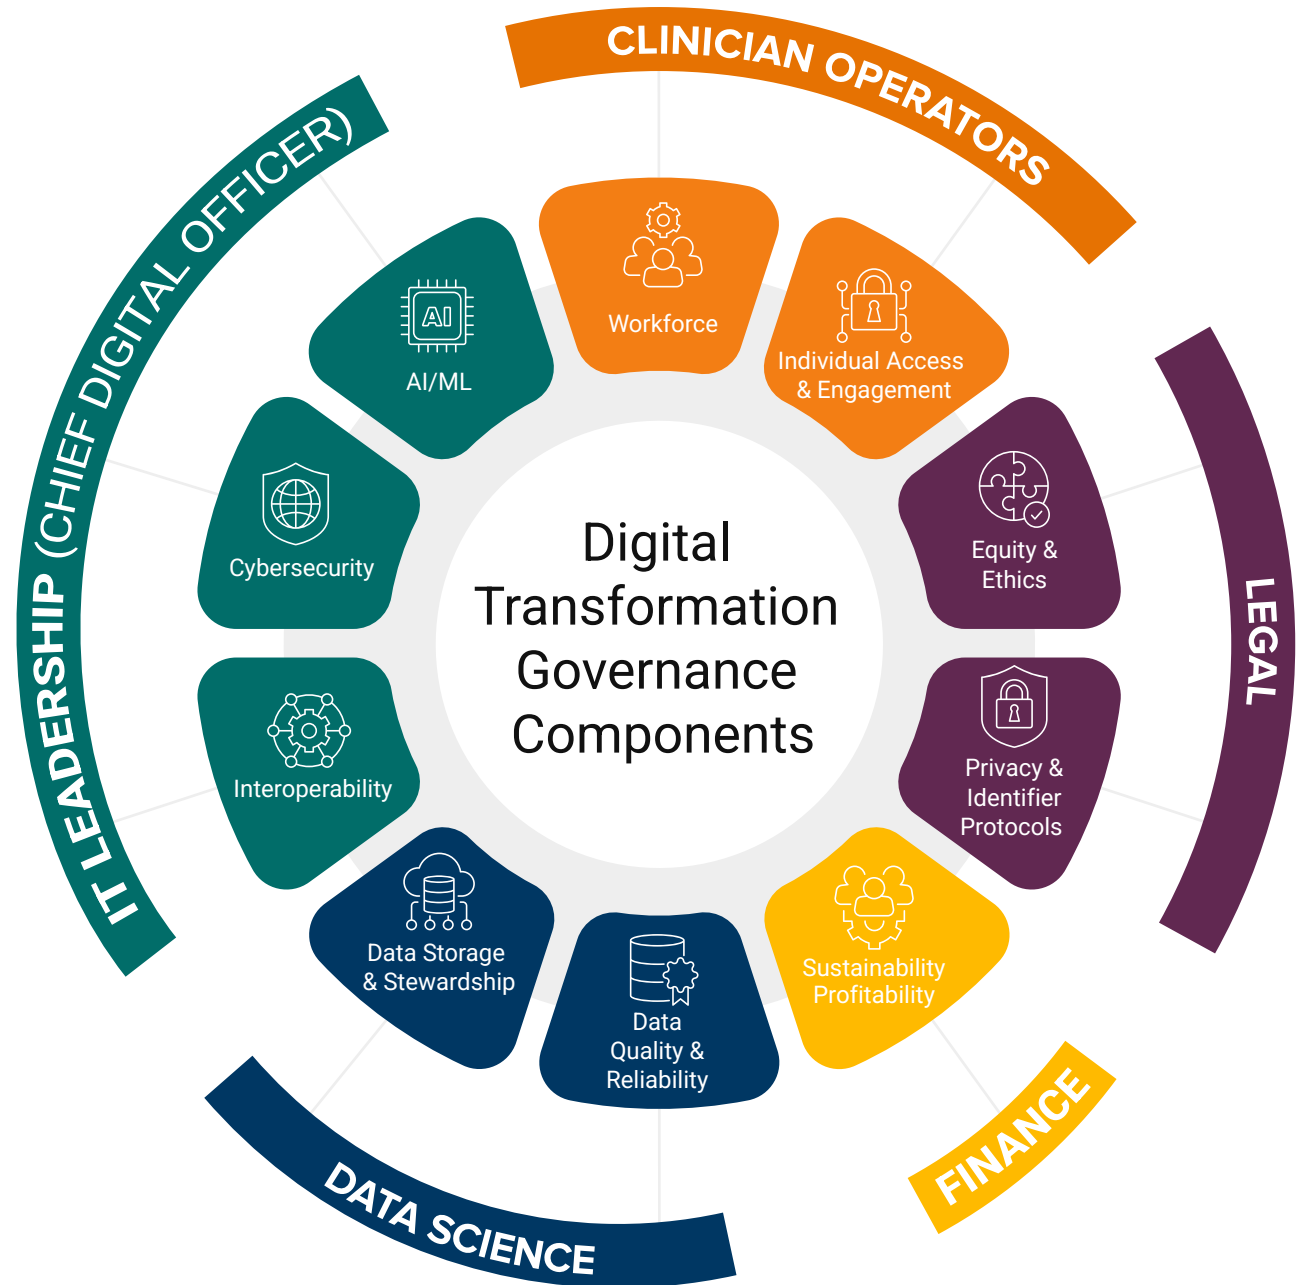

APPLIED AI

PATIENT ENGAGEMENT

REALITY OVERLAY

DIGITAL THERAPEUTICS

and other related technology.

Digital Governance *Toolkit - Overview*

What is the problem you are trying to solve?

What measure will you use to determine success or failure?

What is your organization's decision-making matrix?

What are the roles of executives, managers, clinicians, etc.?

Who has ultimate veto power?

ORGANIZATIONAL CONTEXT

- Enterprise Strategy
- Organizational Culture
- Standalone priority vs. integrated strategy
- What is your existing governance structure today?

MEASUREMENT

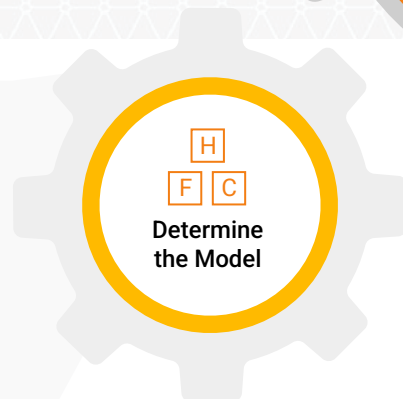

- How will you perpetuate continuous learning through measurement?
- *Consider:* Plan, Do, Study, Act, Agile or other Innovation frameworks.

What type of governance model do you need? (*Federated, centralized, hybrid, etc.?*)

How does the model involve key stakeholders?

How does the model align with the enterprise strategy?

Does the model reflect existing governance structures in the organization? Should it?

What are the objectives, roles and responsibilities of each governing body?

How are oversight and execution duties divided?

Who is responsible for measurement of success?
